PRODUCTS**
A Division of American Polymers Corp.

PROJECT OVERVIEW

Square Feet: 18,000/sf

Factory Qualified Installer: Self-Performed

PROJECT DESCRIPTION

PolyDeck® 150SC, applied on 18,000 square feet of the San Jose Municipal Baseball Stadium's walkways and seating aisles.

PRODUCTS USED

The **Polydeck® 150/150SC** Pedestrian Traffic Deck System is a liquid applied, moisture cured, polyurethane waterproofing system for everyday use. It is resistant to weathering. Installed and maintained properly, the Polydeck® 150/150SC Pedestrian Traffic Deck System will ensure years of service.
