About Us

Laxmi "Lax" Gupta acquired Polycoat Products (established in 1979) in December of 1984. Polycoat Products is well known in the industry for being innovators with our customized, high-performance Polyurea and Polyurethane Coating Systems for nearly four decades. With our strong R & D foundations, state-of-the-art manufacturing plants, and intensive quality control procedures, we produce a wide variety of proprietary single and plural component, aromatic and aliphatic polyurea (PUA) pure and polyurethane (PUR) pure and hybrid coatings (PUA-PUR) designed to protect and waterproof many different types of substrates running the gamut of harsh environmental and service conditions.

Our million square feet of facilities across the United States manufacture these chemistries and is the largest family-owned system house of polyurethanes technologies in the United States. *See Map Below*

Warehouse, Manufacturing, and Distribution Locations across the U.S.

Formulating Quality Chemistry

Polyurethanes

Asphalt Modified Urethanes

Polyureas

Polyaspartics

Hybrid Chemistries

Epoxy & Epoxy Asphalt

Acrylics & Silicones

Prepols - MDI & TDI Based

Polyesters & Polyethers

Specialty Foam

Formulating Advantages

Family-Owned Business

Cost-Competitive & Labor Saving Solutions

ISO 9001:2015 Compliant

User-Friendly Products

Variable VOC Products & Systems

State of the Art Manufacturing

1 Million Square Feet of Facilities

10,000 Gallons Blenders/Reactors

Batch Sizes up to 100,000 lbs

7 Manufacturing Locations Across the USA

Release Agents

Pepperdine University (Pedestrian Deck)

Long Beach Bridge (Pedestrian Deck)

Formulating Connections

For almost 40 years, Polycoat Products has had a customer service-oriented approach to business. This plays a critical role in customers' satisfaction and building strong customer relationships. In addition to on-site support and hands-on field service capabilities, we offer multi-channel customer service through live chat and live video-based communication for remote diagnostics and resolutions.
