**Product Description**
Poly-Caulk® PX27GG (Gun Grade) is a two component, 1:5 (A:B) ratio by volume, non-sag, 100% solids polyurethane sealant.

**Features**
- 100% Solids
- Cured Material Remains Flexible, Even in Cold Temperatures
- Flexible
- Odorless

**Typical Uses**
Poly-Caulk® PX27GG is used on interior and exterior horizontal concrete surfaces, to repair random cracks, control joints, and other areas where down time is limited.
- Airports
- Bridge Headers
- Industrial and Manufacturing Facilities
- Parking Garage Decks
- Saw/Utility Cuts
- Spalls
- Truck Aprons

**Packaging**
1.5-gallon kit
One 1 quart (0.98 liter) can of Side-A and One 2 gallon pail, net fill 1.25 gallons (4.73 liters) of Side-B

**Color**
Concrete Grey

**Coverage**
Coverages and yields shown do not include allowances for loss or waste and variations in job conditions. Each user must establish their own factors for loss from experience.

**Surface Preparation**
Allow concrete to cure 28 days before installation.
All joints must be clean and dry prior to installing Poly-Caulk® PX-27GG. If joint is damp, dry with heat torch.
Remove all dust from the concrete pores prior to installing Poly-Caulk® PX27GG.
Backer rod should be used in control joints, the recommended depth is not greater than 25% of the total depth of the slab.
Construction joints are to be filled to full depth using no backer rod or silica sand.
To repair T-joints, the joint should be cut a minimum of 25% of the total depth of the slab. The side of the T-joint must be cut 12” (29.4 cm) from the joint and a minimum of 2” (5.08 cm) deep.
For random crack and spall repairs, each side of the crack should be cut to create a minimum 2” (5.08 cm) deep vertical edge.

Ensure that all joint edges are at 90° angles to grade with no V-grooving or feather edges.
All surfaces must be primed with Polyprime® 2180 or Polyprime® EBF-LV.

**Mixing**
Poly-Caulk® PX27GG may not be diluted under any circumstance.
Pre-mix Poly-Caulk® PX27GG Side-B material before combining with Side-A. Side-A material requires no mixing. Add Side-A to Side-B while mixing, using a mechanical mixer at low speed. Mix until a homogeneous mixture and color is attained (at least 5 minutes).

Use care to scrape the sides of the container to ensure that no unmixed material remains.

Use caution not to whip air into the material as this may result in pinhole blisters and/or shortened pot life.

Do not mix in an up and down motion.

**Application**

Apply using a caulking gun, hand pressure-type or pour from container.

This material can be applied at ambient temperatures from 40°F (4.4°C) to as high as 135°F (57°C).

The product needs to be conditioned at 75-80°F(24-27°C) prior to use.

**Finishing**

After applying Poly-Caulk® PX27GG, wait 36-48 hours, depending on temperature and humidity before opening to traffic.

**Cleanup**

Cured product may be disposed of without restriction. Mix excess Side-A with Side-B material and allow to cure. Check local, state and federal laws before disposing of material.

**Storage**

Poly-Caulk® PX27GG should be stored at room temperature, 60-95°F (15-35°C).

Poly-Caulk® PX27GG has a shelf life of 1 year from date of manufacture in original, factory-sealed containers when stored indoors at a temperature between 60-95°F (15-35°C).

**Limitations**

Discoloration will occur if exposed to UV, however no change will occur in the physical properties.

**Warning**

This product contains Isoyclicates and Curatives.

**Limited Warranty:** Please read all information in the General Guidelines, Technical Data Sheets, Guide Specifications and Safety Data Sheets (SDS) before applying material. These products are for professional use only and preferably applied by professionals who have prior experience with the Polycoat Products materials or have undergone training in application of Polycoat Products materials. Published technical data and instructions are subject to change without notice. Contact your local Polycoat Products representative or visit our website for current technical data, instructions, and project specific recommendations.

Polycoat Products warrants its products to be free of manufacturing defects and that they will meet Polycoat Products’ current published physical properties. Seller’s and manufacturer’s sole responsibility shall be to replace that portion of the product which proves to be defective. There are no other warranties by Polycoat Products of any nature whatsoever expressed or implied, including any warranty of merchantability or fitness for a particular purpose in connection with this product. Polycoat Products shall not be liable for damages of any sort, including remote or consequential damages resulting from any claimed breach of any warranty whether expressed or implied. Polycoat Products shall not be responsible for use of this product in a manner to infringe on any patent held by others. In addition, no warranty or guarantee is being issued with respect to appearance, color, fading, chalking, staining, shrinkage, peeling, normal wear and tear or improper application by the applicator. Damage caused by abuse, neglect and lack of proper maintenance, acts of nature and/or physical movement of the substrate or structural defects are also excluded from the limited warranty. Polycoat Products reserves the right to conduct performance tests on any material claimed to be defective prior to any repairs by owner, general contractor, or applicator.

**Disclaimer:** All guidelines, recommendations, statements, and technical data contained herein are based on information and tests we believe to be reliable and correct, but accuracy and completeness of said tests are not guaranteed and are not to be construed as a warranty, either expressed or implied. It is the user’s responsibility to satisfy himself, by his own information and test, to determine suitability of the product for his own intended use, application and job situation and user assumes all risk and liability resulting from his use of the product. We do not suggest or guarantee that any hazard listed herein are the only ones which may exist. Neither seller nor manufacturer shall be liable to the buyer or any third person for any injury, loss or damage directly or indirectly resulting from use of, or inability to use, the product. Recommendations or statements, whether in writing or oral, other than those contained herein shall not be binding upon the manufacturer, unless in writing and signed by a corporate officer of the manufacturer. Technical and application information is provided for the purpose of establishing a general profile of the material and proper application procedures. Test performance results were obtained in a controlled environment and Polycoat Products makes no claim that these tests or any other tests accurately represent all environments.
